INTERACTIVE TAX MAP OF UKRAINE

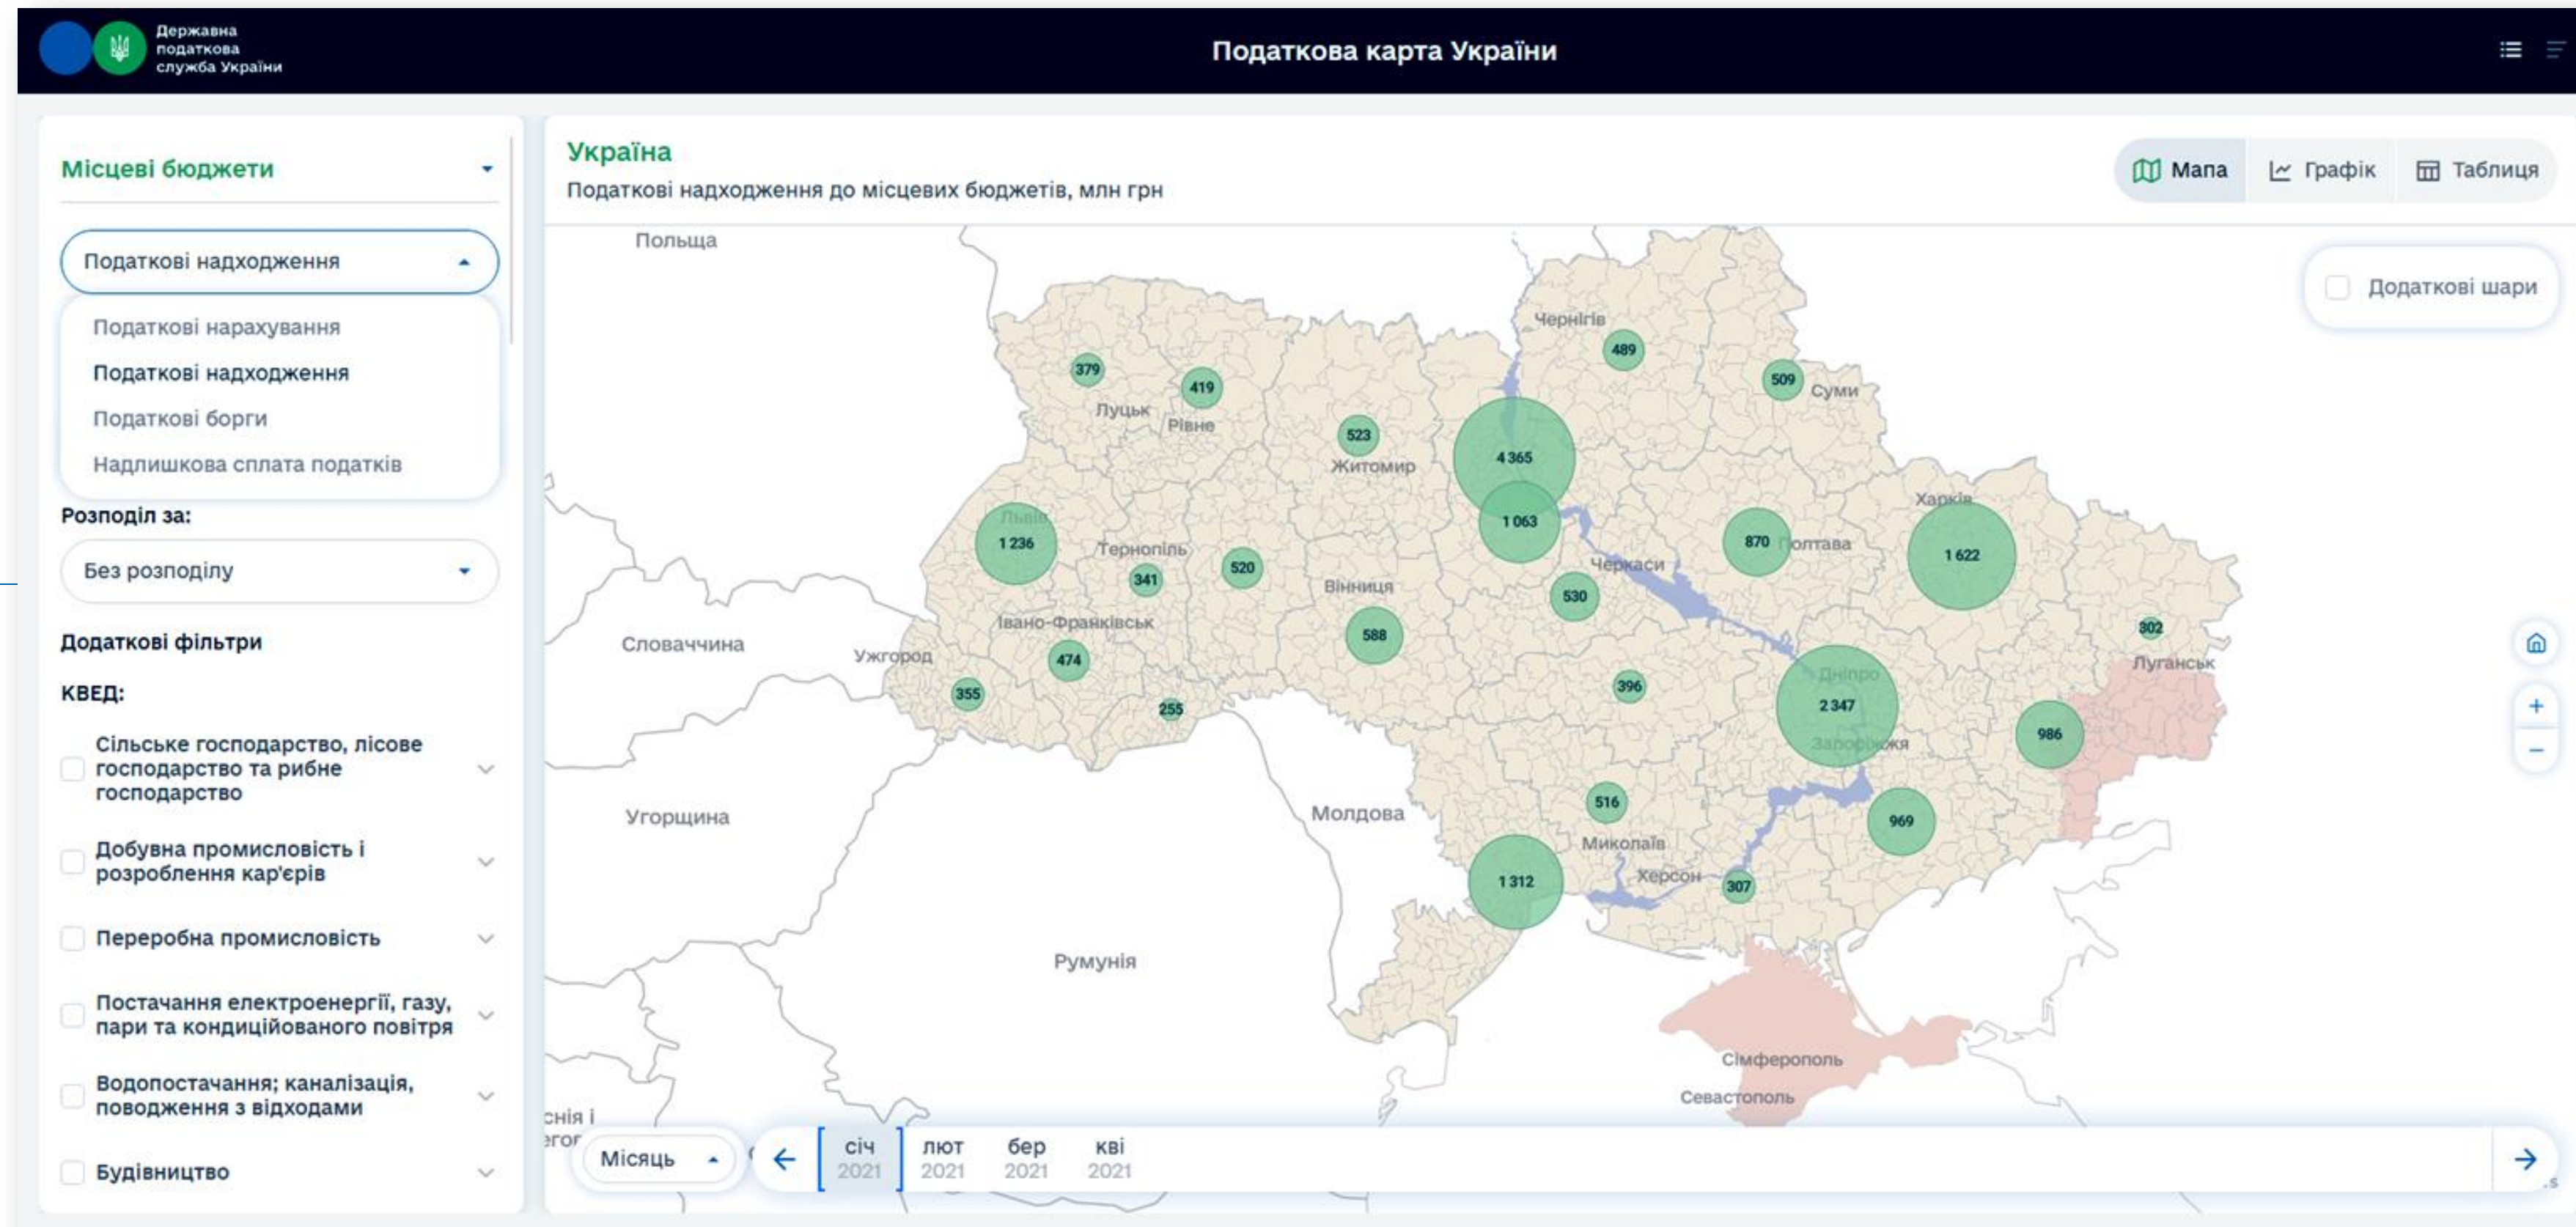

State
Tax Service
of Ukraine

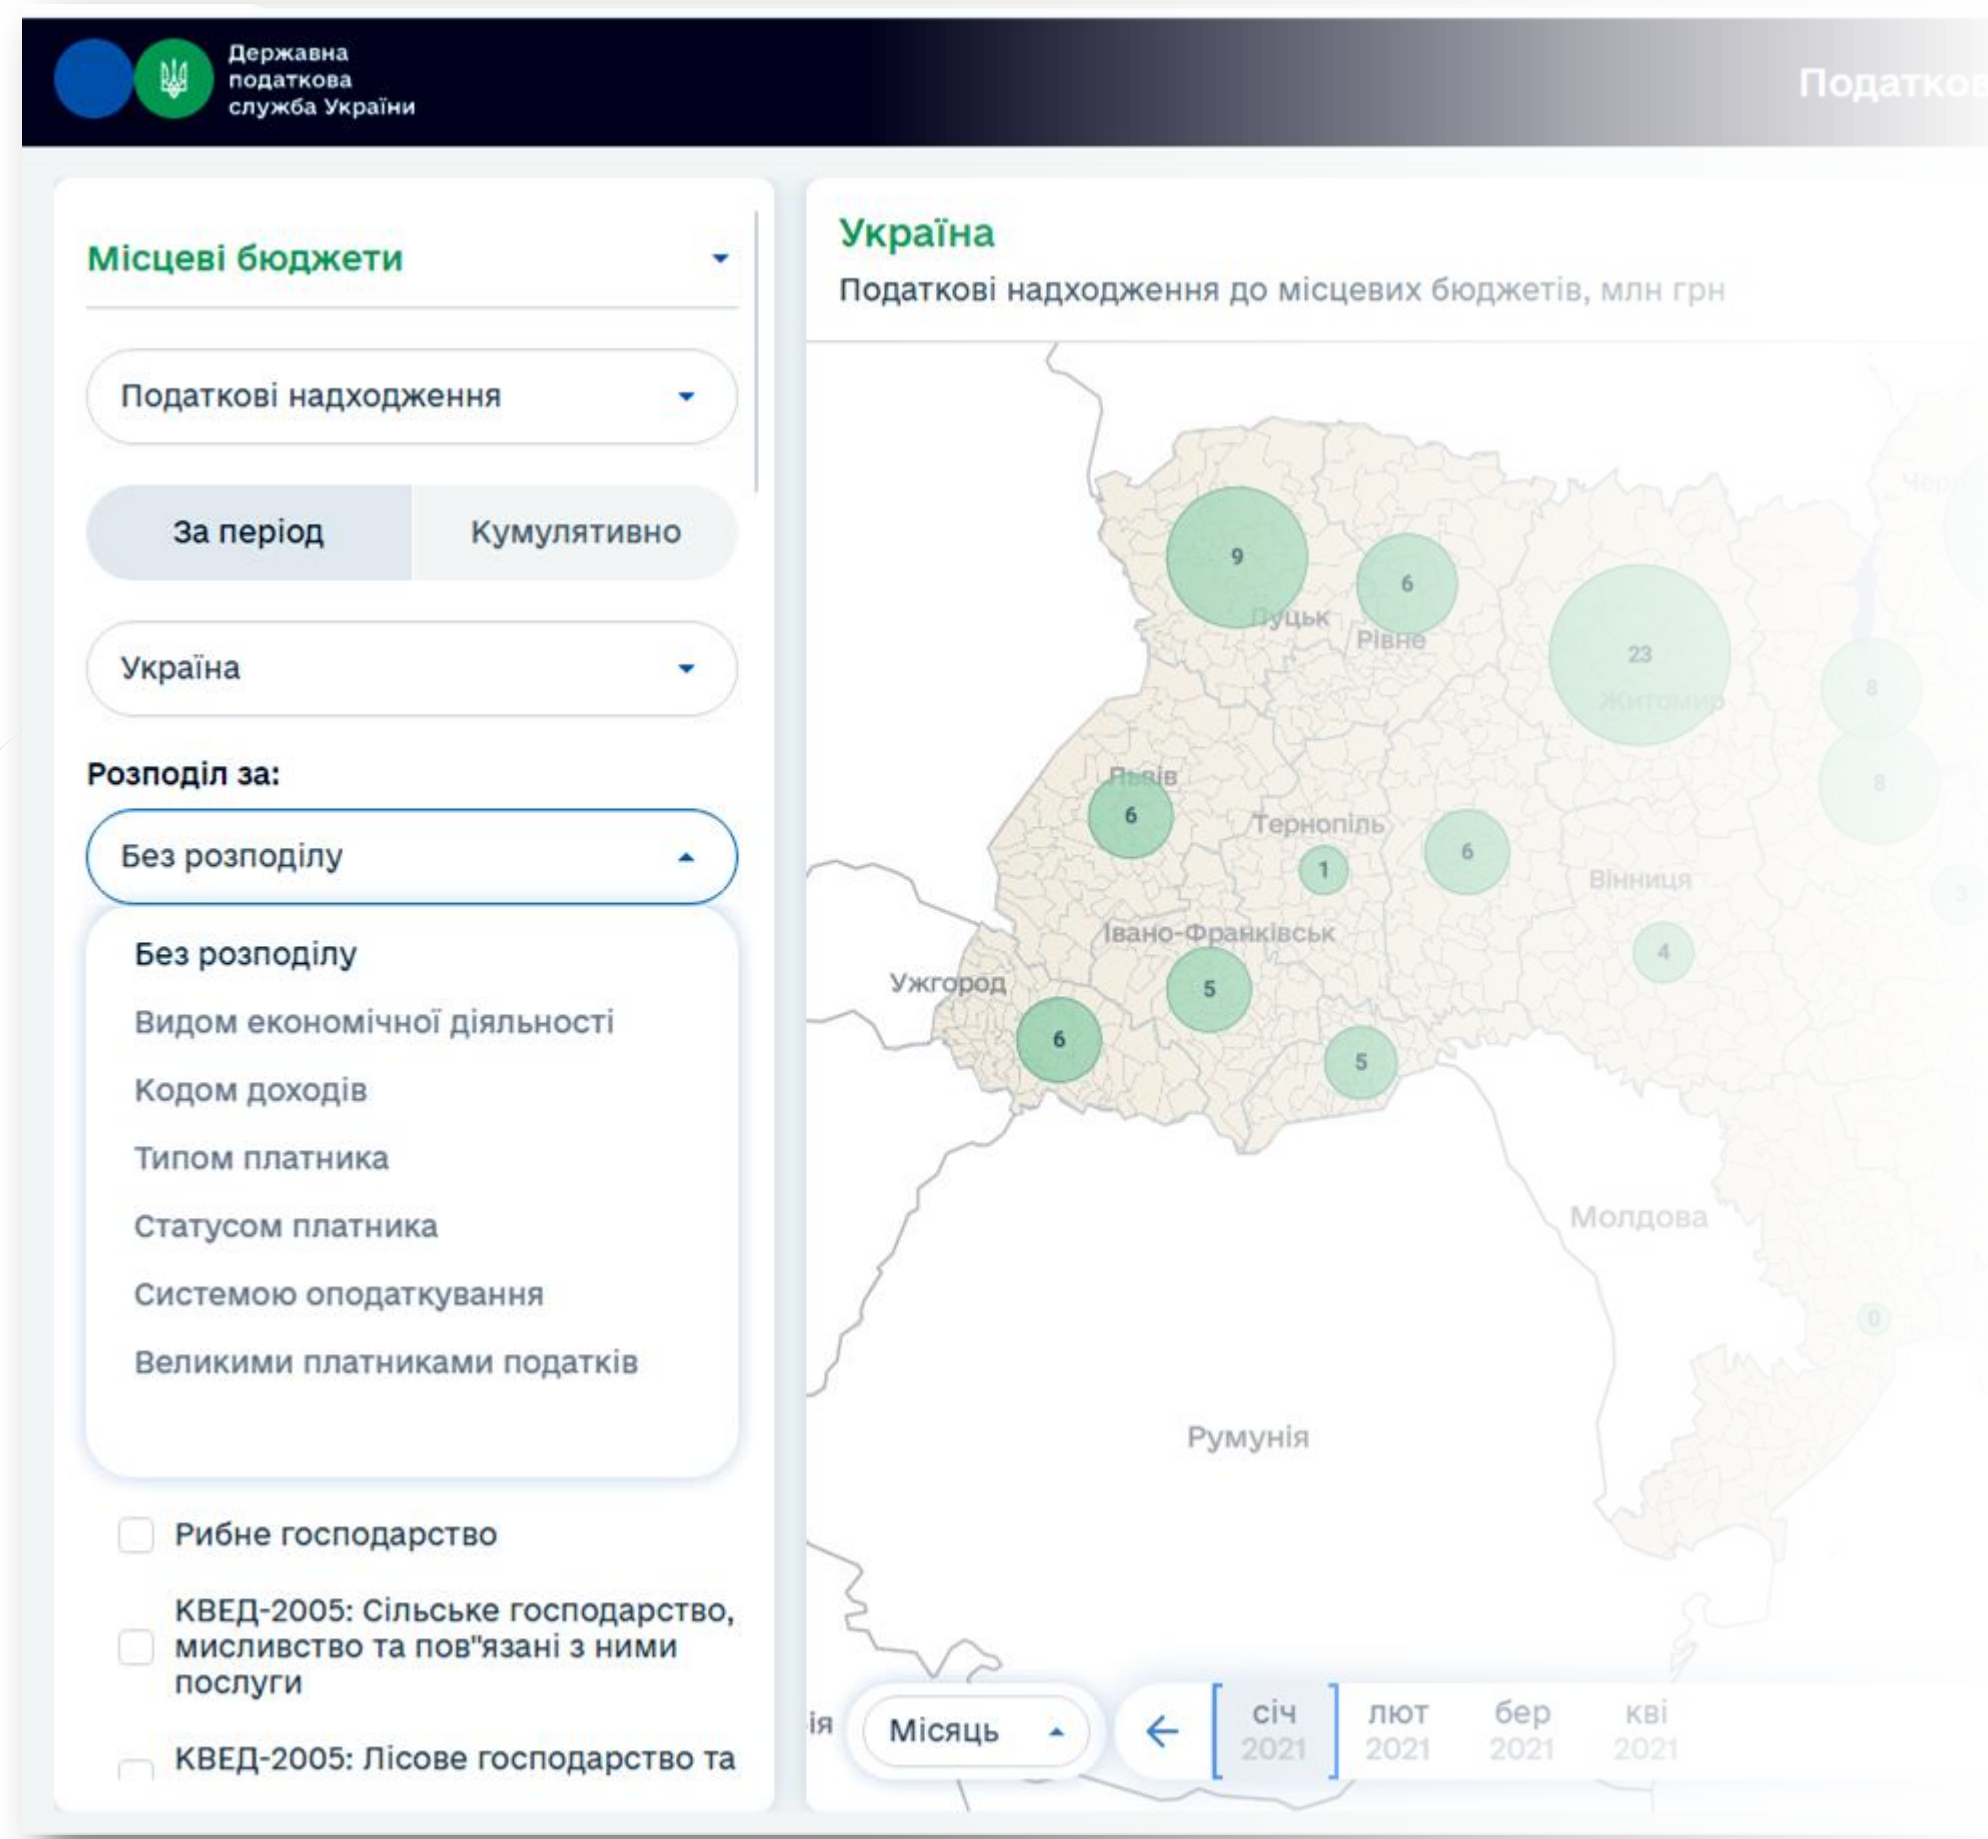

MAIN GOAL

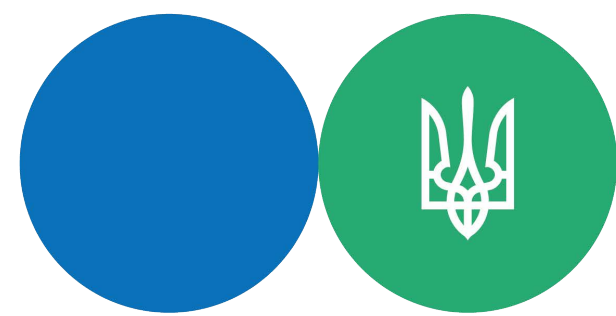

Introduction of the Tax map is a provision of service for citizens and business community which allows to receive up-to-date tax information online at any time without recourse to the STS and its bodies, specifically about the aggregate indicators in terms of paid amounts of tax payments, accrued tax liabilities, amounts of tax debt, overpaid amounts and amounts of payments that are paid and will be accrued in subsequent periods.

Information will be provided in general
in Ukraine and in the terms of:

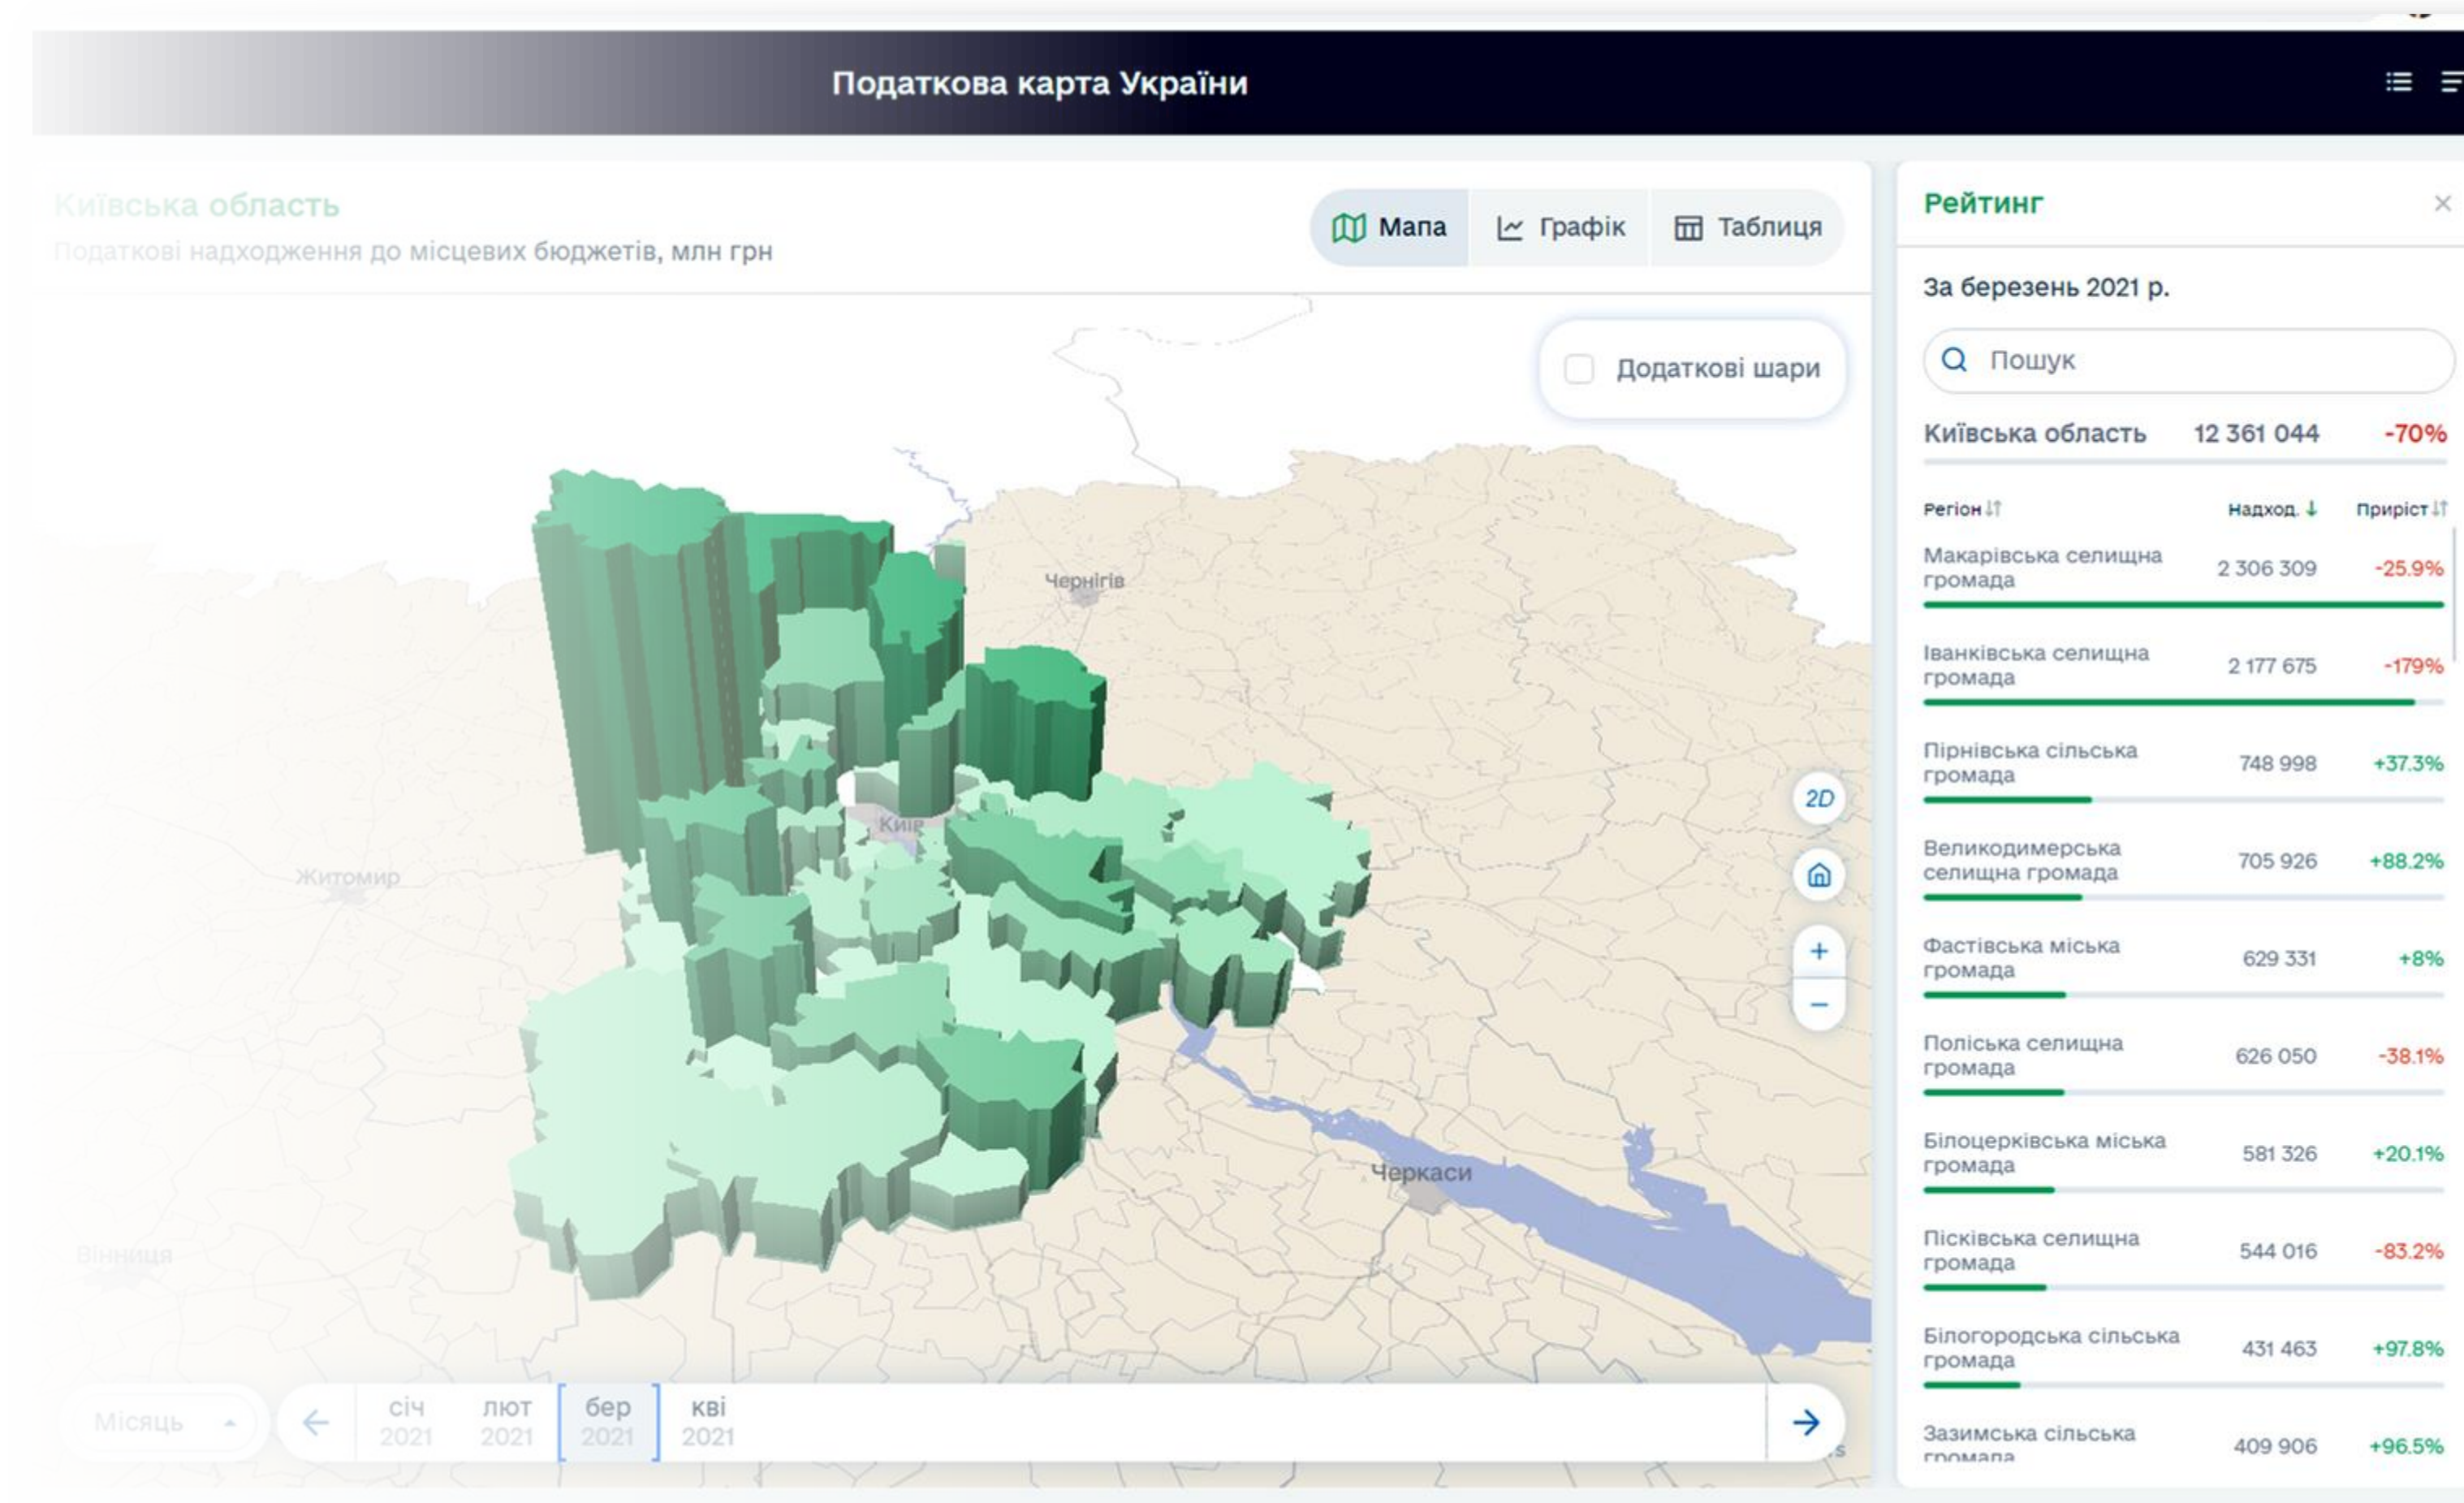

- regions;
- territorial communities;
- types of economic activity;
- taxes;
- types of budgets;
- taxation systems;
- organizational and legal forms;
- payer's type (individuals and legal entities);
- payer's status (large, medium, small business and non-profit budget institutions).

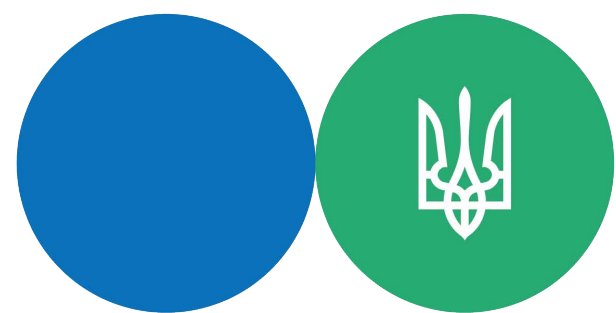

State
Tax Service
of Ukraine

There is provided
functionality to obtain
indicators for the reporting
date compared to the
previous period in the form of
graphs and charts

State
Tax Service
of Ukraine

AVAILABILITY IN THE E-CABINET

Tax map will be available to users on the web portal of the STS and in open part of the E-Cabinet.

Currently, the State Tax Service of Ukraine conducts testing of developed functionality.
